Custom glass fixtures require great attention to detail. Here, crown and scallop designs are carefully cut into a mask before sandblasting to recreate an Art-Deco lens.

Our foundry can pour a variety of metal castings. Bronze plaques like this one can be customized by our artists to create an enduring legacy of your church's history

Albemarle series chandelier minus the central hub. Modified to fit a lower ceiling within a wide auditorium.

Our shop has the ability to restore and replicate existing church fixtures. We can also convert them to more energy efficient light sources for you. The fixture shown was retrofitted with a Quartz center light and fluorescent lamps in the satellites.
